

Dear Valued Customer,

We are excited to announce some changes in our Southwest Products business. We remain your source for the highest quality custom Fuel and Lube Trucks, IMT Mechanic Trucks and Cranes and Manitex Cranes under the SWP name. As of January 11, 2021, the Engine, Power Sales and Service divisions have consolidated with Perkins Pacific as Olympic Western Power (OWP). In part, we made this decision to help broaden our support network by adding branches as authorized Service Support Centers for SWP vehicles. This change adds operations in Ridgefield WA, and Oklahoma City, OK to the existing branches of Galt, CA; Signal Hill, CA; Surprise, AZ and Houston, TX.

Throughout the month of January, employees who are moving over to the new business will have new email addresses. We will begin to transition those divisions mentioned above to a new website. In addition, throughout 1st quarter 2021, as you do business with the Engine, Power Service and Sales divisions you will see the additional branding rollouts made to stationary, invoices, uniforms, vehicles, and buildings.

We look forward to continuing to provide you the best service and power solutions in the industry.
